

Savitribai Phule Pune University

Bioinformatics Centre

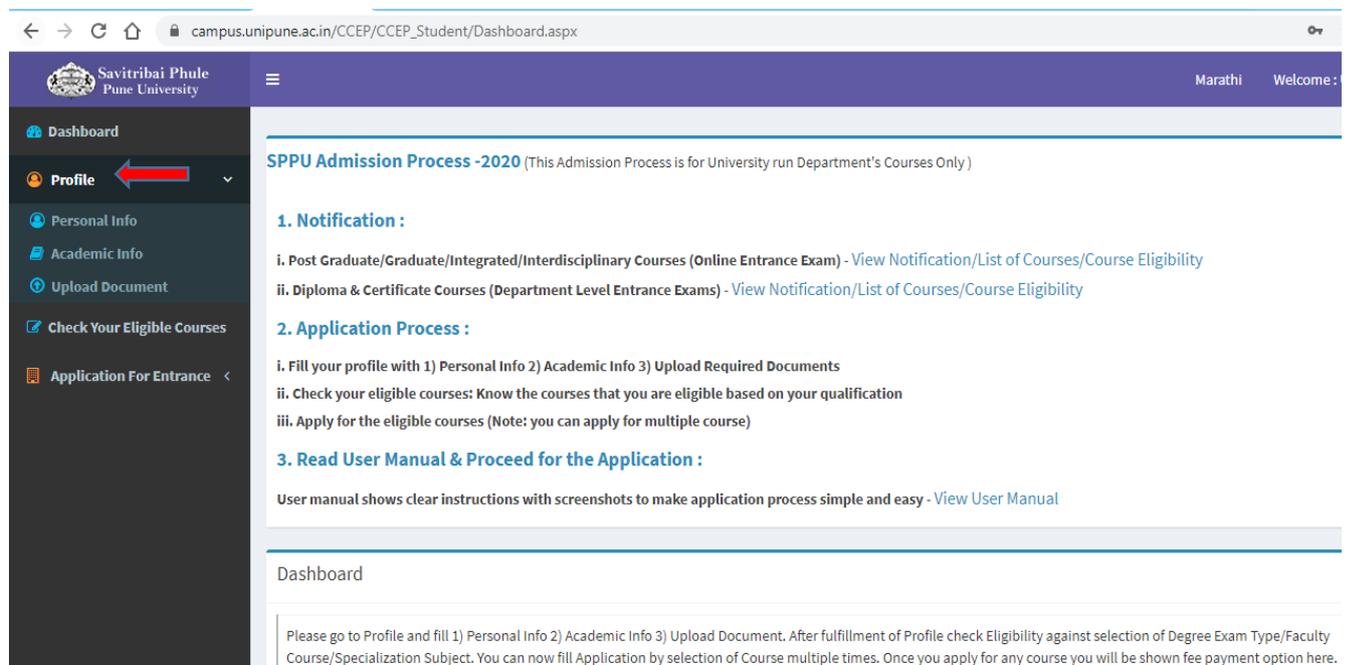

Process of Admissions to M. Sc. Bioinformatics for the 2020-2022 Batch

The candidates who are selected for admissions as per the Merit List should follow the steps given ahead for the admission formalities:

- Create your Account on the CAMPUS COMMON ENTRANCE PLATFORM (CCEP) of the Savitribai Phule Pune University. The URL of the CCEP is: <https://campus.unipune.ac.in/CCEP/Registration.aspx>
- Here is the screen shot of the web page.

- Enter your Email id and follow the instructions that you will get to create the account. You will receive an OTP which you will have to enter in the system in this process.
- After your account is created, you can login using the used id / email address and the password.
- After you login, you may go to the “Profile” section listed in the leftmost column of the page and fill up the sections - personal Information, Academic Information, and then upload the Documents. Please see the screenshot ahead.

- Once this is done, each candidate should **send the correct user id / email id which you will use for future process to directorbioinfopune@gmail.com** so that we can enable the next steps of the admission formalities for you. **Please note that you should send your GAT-B rank card as a PDF attachment along with this email.**
- **After we receive your user id / email id, we will enable the option to submit your application. We will notify you once this is done. After that, you have to again login to the CCEP account and click on the “Apply” button so that your application and uploaded documents will get submitted.**
- After we receive the necessary documents uploaded by you, we will verify those and then approve your candidature for admission.
- You will be notified accordingly on email, after the verification is completed. You may then proceed to pay the fees using the same CCEP account. The payment of fees is to be done through online payment gateway available on CCEP system.
